Re: Docket #'s E-01345A-08-0112 +
E-00000J-08-0314 + 6-00000G-08-0314

Dear Commissioners,

As an APS customer, I am writing in support of increasing energy efficiency requirements as part of the Commission Workshops on energy efficiency & The APS rate case. Energy efficiency should be first place we turn to meet our state's energy needs. It provides benefits to a variety of customers through different programs. It saves business & residents \$, reduces water consumption, alleviates air pollution & other health concerns. It should be your TOP priority. Make this happen, please.

Yours truly,

Nina Dimitrov

Re: Docket Numbers E-01345 A-08-0172 and E-000003-08-0314 and
G-00000C-08-0314

Dear Commissioners:

We must take energy efficiency into account as our nation advances in the direction of energy independence. Arizona must not only follow - but lead in this crucial area in order to better our current and future economic situation. I do realize that efficient technology may result in higher cost; however, I would rather invest my money to something of promising potential - instead of obsolete technology.

Please take my concerns seriously, as I am very passionate w/ regards to this issue. I appreciate the investments you have made, thus far, to Arizona's future - and I look forward to the direction you will take us in the future.

Kind Regards,

Jeremy Reimann

Docket Numbers E-01345A-08-0172, E-00000J-08-0314
and G-00000C-08-0314

Dear Commissioners,

I am writing in support of increasing energy efficiency programs to at least 20% by 2020 in Arizona as part of the Commission workshops and the APS rate case. As you likely know, energy efficiency is the quickest, cheapest and cleanest way for our state to meet its growing energy needs.

I recognize that energy efficiency programs require some up front funding that can result in slightly higher electricity rates, but me and others like me share a willingness to pay a little more in utility rates now to help obtain energy efficiency in the future.

If we invest properly, like in lighting and weatherization, we can actually lower overall electric bills. Let us all be willing to pay higher rates to fund programs that will help to lower our energy use and electric bills.

Thank you for your work on this important issue.

Sincerely,

Christine Donley,

Dear Commissioners

Energy efficiency has played a small role in our states energy mix. I believe that we are all aware that its potential is significant.

As an APS bill payer I feel that the Energy efficiency should be top of the energy resource list for benefiting customers and the economy.

Please make this happen.

Yours truly,

Dear members of the Arizona commission:

As the summer gets closer many individuals are going to feel the impact of economic recession. Many of these individuals are loyal customers to APS. The Arizona Corporation Commission can help by increasing energy efficiency requirements and programs. This will not only save the consumer much needed money but will also save APS money in the long run.

With regards,

Austin Nudi

E-01345A-08-0172

E-00000J-08-0314

G-00000C-08-0314

DEAR COMMISSIONERS,

I AM WRITING AS A STUDENT AT THE UNIVERSITY OF ARIZONA IN SUPPORT OF INCREASING ENERGY EFFICIENCY PROGRAMS TO AT LEAST 20% BY 2020 IN ARIZONA AS PART OF THE COMMISSION WORKSHOPS AND THE APS RATE CASE. ARIZONA'S POPULATION IS GROWING RAPIDLY AND THE QUICKEST, CHEAPEST, CLEANEST WAY TO MEET OUR GROWING ENERGY NEEDS IS TO INVEST IN ENERGY EFFICIENCY.

AS I ENTER THE CONSUMER MARKET, I AM HAPPY TO PAY A SLIGHTLY HIGHER ELECTRICITY RATE IF IT IS BEING INVESTED IN ENERGY EFFICIENCY PROGRAMS. SPECIFICALLY I FEEL THAT SOLAR POWER CAN ~~be developed~~ AND SHOULD BE EXPLOITED ~~more~~ HERE IN ARIZONA MORE THAN IT IS TODAY. THE SUN IS, AFTER ALL, AN ABUNDANT RESOURCE. I AM WILLING TO PAY HIGHER RATES TO FUND PROGRAMS THAT WILL ULTIMATELY HELP LOWER MY ENERGY USE AND ELECTRIC BILLS.

THANK YOU FOR YOUR WORK AND SUPPORT ON THIS IMPORTANT ISSUE.

SINCERELY,

TIERNEY MARSH

Re: Docket Numbers E-01345A-08-0172 and E00000J-08-0314
and G-00000C-08-0314.

Dear Members of the Arizona Corporation Commission:

As we approach the summer months and think about the heat and our electricity bills, I am concerned the current economic situation will hit me even harder this season. Please provide some relief for the short and longer terms by increasing energy efficiency. I am willing to increase my electricity rates in order for this to happen as I realize my monthly electric bills will decrease through strong energy efficiency programs.

Energy efficiency has tangible advantages such as the ability to save consumer's money right away. Energy efficiency programs such as weatherization, appliances, lighting, ..., helps businesses and individual consumers. Education on these programs coupled with technical assistance and rebates is a win-win-win for customers.

I appreciate the work the Commission has done to increase renewable energy such as solar and wind, and while you continue moving forward in that direction, please also include meaningful efforts to improve energy efficiency programs under your jurisdiction.

With regards,

Alex Lopez

Re: Docket Numbers E-01345A-08-0172
and E-00000J-08-0314 and G-00000 C-08-0314

Dear Commissioners:

I am writing to you in support of increased energy efficiency requirements as part of the APS rate case and as part of the commission workshops on energy efficiency. Energy efficiency is the cleanest and cheapest energy source we have. We should maximize efficiency measures and require the utilities to offer programs to assist customers to increase their energy efficiency.

I realize that energy efficiency programs require some upfront funding that can result in slightly higher electricity rates. I also believe that investing in efficiency measures will help to lower some electric bills. Weatherization, new energy efficient lighting and appliances, and mitigating the heat island effect can all lower energy consumption. I am willing to pay higher rates to fund programs that will help me to lower my overall energy use my electric bills.

As a part of APS rate case and the Commission's workshops, I encourage you to require that APS invest in these programs to provide rebates and technical support to electric utility customers who purchase energy efficient lighting, air conditioners, and other equipment, or invest in measures in their home, office or other buildings that will result in lower amount of energy use. I also would like to see programs to help reduce the urban heat island effect through shading, cool roofs, and cool pavements. As an APS customer, these are programs that will benefit people to lower overall electric bills.

I also support measures to provide technical assistance and financial incentives for schools and businesses that increase their energy efficiency, as well as design assistance and incentives for builders who construct efficient homes and buildings. Any efficiency program should include grants for weatherizing low-income housing rental and owner occupied.

Thank you for considering my comments as you deliberate over increasing energy efficiency in Arizona.

Sincerely,

Richard J. Carter / 633 W. Romley Ave. PHX, AZ 85041

Re: Docket Numbers E-01345A-08-0172 and E-00000J-08-0314 and G-00000C-08-0314

Dear Commissioners,

AS I am sure you know, energy efficiency ~~had~~ ^{has} not played a large role in our state, but the possibility could ~~improve~~ bring us up to par with other states. I am writing in support of increasing energy efficiency requirements as part of the Commission workshops on energy efficiency and the APS rate case. For me, energy efficiency should be a top priority and the first place we turn to meet our states energy needs. I would be willing to pay more to make this become solid.

Energy efficiency provides benefits to a range of customers and programs. Overall, energy efficiency not only helps save businesses and consumers money, but ~~reduces~~ also reduces water consumption coming from nuclear power, alleviates air pollution, ~~and~~ decreases health issues associated with power coming from coal.

I believe energy efficiency should be high on the list because of the benefits to customers as well as the economy.

Please make this happen.

Dear members of the Arizona Corporation
Commission -

We are getting ready to approach
one of the hottest times of the year.

There is away to raise rates and
Save the consumer Energy and money.

As a consumer I would like
to see a change in the way Electricity -
and is being used and also to
help everyone to save money
and to help save the planet,

There are energy efficient programs
and ways to use less power
and still be able to do all
necessary things such as lights,
heat, air conditioning. Let's save
the environment now. Thank you
for the work of the commission
to help our community and
planet.
